

Online Marketing and Advertising Agency Go Traffic Interactive Announces New Client Computer Engineering Group

Online marketing and advertising agency Go Traffic Interactive announces the launch and redesign of Computer Engineering Group's website ce-group.com. The Agency will assist CE-Group in building further relationships within the information technology industry through search engine optimization. A Search Engine Marketing campaign will help achieve top ranking in the search engines, such as Google and Yahoo, allowing for visibility of Computer Engineering Group's website ce-group.com.

Since 1989 Computer Engineering Group's professional engineers have been serving businesses throughout Napa Valley and the North Bay Area. CE-Group is an IT company offering network services, windows server management, web hosting, email and back up technologies services. They are also certified resellers of Microsoft, Hewlett Packard and Dell products.

Computer Engineering Group consults with their clients, to design, build, deliver and support their client's technology solutions. CE-Group has developed a reputation for excellence and outstanding customer service, dedicated to each client's success. Computer Engineering Group will help meet their clients ongoing business challenges, implementing efficient and economical computer and software applications that maximize their customer's productivity and enhance customer relations.

Computer Engineering Group is familiar with complex computer systems, and has extensive expertise within a wide range of computer technology. CE-Group has also developed state-of-the-art computer engineering processes that allow them to manage multi-vendor, multi-platform solutions. CE-Group services a wide array of PC hardware and operating systems, specializing in all of Microsoft's professional line of products.

Go Traffic Interactive is an advertising agency that develops online marketing and traditional advertising campaigns & collateral.
